Web Developer

Profile

I am a dedicated and detail-oriented web developer with a strong foundation in both front-end and back-end technologies. Currently completing my degree in Computer Science at UCSMGY. I am eager to apply my skills in a dynamic development team where I can contribute to impactful projects and continue to grow as a developer.

Project Experience

2023

-

2024

Final Year Graduation Project (UCSMGY)

Full Stack Developer (Team Leader)

Led a team in the design and development of a Next-Gen Job Matching system. Responsible for back-end development using Laravel, including writing middleware to enhance security.

2022

-

2023

Pizza Order Project (POS)

Web Developer

Developed a Pizza Order System using Laravel, focusing on a user-friendly interface and efficient back-end processes.

2022

-

2023

Voting System for Selection Choice

Web Developer (Team Leader)

Developed a user-friendly website with responsive features using Bootstrap and implemented the backend of the system with pure PHP.

2022

-

2023

Birth and Death Registration System

Web Developer (Team Leader)

Developed a system to digitize birth and death rates for use at the community level. Responsible for creating responsive web design and implemented the back-end with pure PHP.

Rewards

Birth and Death Registration System
